

**THEY say, "You can make more money.
But you can't make more time."**

But THEY don't fly SkyShare®

SkyShare® is an innovative concept that makes the many advantages of owning a company plane accessible and affordable.

The old saying that "you can make more money, but you can't make more time" is no longer true with the SkyShare fractional ownership program. With your SkyShare investment, you'll actually be making more time to spend the way you wish.

The SkyShare fractional ownership program brings you all the advantages of aircraft ownership – at a fraction of the cost and with none of the hassles of managing ownership.

For more information about what SkyShare can mean for you, call now or visit
