

*“CyCare service
is what a
partnership is
all about.”*

“CyCare has been our business partner for 16 years. Their major strengths include industry-leading proprietary software operated on a Bull hardware platform. But there’s so much more to CyCare than information systems.

“CyCare’s account managers are vital to our mutual success. Their regular visits create a healthy-team relationship and are critical to the ability of our people to stay current and to get the most from CyCare’s systems and services.

“CyCare has clearly made a commitment to the McGuire Clinic: the constant communications, current information, training schedules, the opportunity to brainstorm.

“CyCare contacts us and says, ‘how can we be of service,’ ‘how can we improve,’ and that’s what a partnership is all about.”
