Your

Place To LearnSM

There is a place, right here and right now, that can change your life for the better. A place where your dreams can begin to take shape. Best of all, it's your place.

Your community college. Earn your first two years toward a college degree. Learn a trade. Become a certified nurse, computer operator, or technician – all at one-third the cost of many four-year colleges.

People love National Park Community College: Excellence in teaching; so many opportunities. A warm, home-like campus. Right here. Right now.

ALL AGES – ALL INTERESTS

Our student body has ranged in age from 8 to 80. That must mean we have something for everyone.

MONEY TO HELP YOU LEARN

Don't let money worries keep you away. We have scholarships and student loans and course discounts. Keep your job while you keep learning.

TO EARN MORE – LEARN MORE

The more education you have the more opportunities for you to earn more. That's a fact! Many of our two-year or technical certificate grads have doubled their annual incomes. Many grads have gone on to be lawyers, doctors, business owners, etc.

TAKE THE FIRST STEP – TODAY

Come talk to us. Share your dreams. We're here for you. Take as many or as few courses as you have time for. Most of all, just get going.

LIKE FAMILY

Our students and teachers build close friendships and become like family. We're just large enough to offer what you need. Just small enough to be like family.

NATURE'S OWN SETTING

Students and visitors are always surprised by the unique and beautiful mountainside setting of our campus. It's a pretty place to learn.

SO MANY CHOICES

NPCC offers many 1-year certificate and 2-year degree programs that can help you on your way to a better future. Associate of Arts and some 2-year degrees are fully transferable to most 4-year colleges and universities and count toward Bachelor's degrees.
