

"ALLTEL Matched System Support To Our Strategic Direction."

"ONBANCorp, based in upstate New York, is a top U.S. performer in acquisition strategy. Our growth has been tremendous. Despite fierce competition from New York's most prominent banks, we've increased our assets 500% in the last eight years.

"When we needed new information systems to drive our strategy, we analyzed our objectives, looked at the alternatives and selected a true

partner - ALLTEL Information Services (formerly Systematics).

"ALLTEL matched system support to our management strategies. Now, we get complete information control - quality information that makes us a true competitor. We get manpower and expertise in perfect tune to our changing priorities.

"ALLTEL is our technology partner, and we are talking together in a dialogue we both understand.

"We're poised for the future with information supporting our strategic direction."

ALLTEL
INFORMATION SERVICES
