

The University of Central Arkansas

The Center of Learning™

UCA

One of the most beautiful campuses in the South is located right here in Central Arkansas. At 10,000 strong, UCA is the center of learning for some of the state's brightest students, providing an opportunity to learn from devoted faculty and a wireless campus.

Home of State's First Honors College

UCA has a 100-year tradition of excellence in the classroom and on the playing field. In fact, Arkansas' first Honors College was described by former Secretary of Education Terrell Bell as "an Ivy League education at a bargain price." UCA offers students opportunities to realize their dreams of what a college education can be.

Wireless Campus

Devoted Teachers

Teachers, not mostly graduate assistants, teach at UCA. They become mentors, build bonds and prepare our students for the real world. Visit our campus in person or take a virtual tour online at www.uca.edu and see for yourself why UCA is as much a home as it is the Center of Learning.
